#### TITLE

APPENDIX C INTRODUCTION

#### ORIGINATOR

VUD

#### SUBJECT RELATED TO

Commission Regulation (EU) 321/2013  
(WAG TSI) amended by Reg. (EU)  
2020/387

AMENDMENT RECORD:

#### DESCRIPTION AND BACKGROUND EXPLANATION

The aim of this RFU is to highlight some discrepancies in Appendix C and D of WAG TSI.

##### Background:

##### **TSI WAG 321/2013, Appendix C:**

*“The compliance with the following set of conditions C.1 to C.18 is optional.”*

##### **TSI WAG 321/2013, Appendix D:**

*“Standards or documents referred to in the additional optional conditions set out in Appendix C.”*

##### Description of the situation:

It seems that the introduction of appendix C and the table in appendix D have not been updated to reflect the fill number of sub-clauses in appendix C when the TSI WAG was amended by (EU) 2019/776 and (EU) 2020/387:

- appendix C defines the clauses C.19 and C.20, but the introductory sentence does not include these two new parameters among the voluntary options;
- the table of Appendix D does not reflect ‘Mandatory standards or normative documents referred to in this TSI’ related to clause C.19 and C.20.

If the option of Appendix C is selected by an applicant, section C.5 requires that, that the entire appendix C must in this case be applied (for GE marking) or the entire appendix C with certain defined exceptions (for CW marking).

*Note: The clauses C.19 and C.20 now also belong to the content of Appendix C and should in a future TSI WAG revision be added into the introductory information of that Appendix. Appendix D should also be amended accordingly to avoid misunderstandings.*

### RFU PROPOSAL

As Appendix C now includes 20 subsections, the first sentence in Appendix C shall be understood as *“The compliance with the following set of conditions C.1 to C.20 is optional.”*

In relation to ‘Mandatory standards or normative documents referred to in this TSI’ (normally summarised within Appendix D), these shall:

- for clause C.19 be taken from clause 4.2.3.4 of TSI WAG as defined for ‘line side detection equipment’ and
- for clause C.20. be taken as indicated in that clause C.20 itself.
